Copy 1

MEMORANDUM FOR: Assistant to the DD/I (Planning)

THROUGH : Chief, Production Services Division

SUBJECT : Status of Vital Records Depository

REFERENCE : Telephone Conversation of 29 October 1962 between TSO/CIA and [redacted] NPIC 50X1

1. The NPIC file of Vital Materials at the relocation site consists of 2,338 boxes of film and reports. The volume of this material is slightly over 2,400 cubic feet.

2. The film holdings consist of a complete dupe negative large scale copy of all penetration missions, and of some Middle East missions. Other Middle East missions are covered either by a dupe positive or a dupe negative copy of the tracker film. A dupe negative and a dupe positive copy are on hand for each satellite mission. Dupe negative copies of the 3000-3100 series of missions (Laos/Vietnam and Cuba) through Mission 3116 are either at the site or ready to be sent.

3. The report holdings consist of two copies of all NPIC produced reports of all types; two copies of most (one copy of some) Air Force (including SAC), Army, and Navy reports of TALENT and TALENT-KEYHOLE sources. There are comparatively few [redacted] 50X1 reports in the file. There are some specialized reports in the file from [redacted] FTD, NTPC, and other miscellaneous 50X1 sources.

4. The only film plots presently in the files are Mission Coverage Plots (MCP), the first of which were produced in January 1961. The file of Mission Coverage Summaries (MCS) and Mission Coverage Indexes (MCI), however, is complete.

5. There is no film handling equipment at the relocation site.

Declassified in Part - Sanitized Copy Approved for Release 2014/03/10 : CIA-RDP78B05707A000500090003-8

6. About a hundred boxes of film and reports are on hand ready to be sent to the relocation site.

7. As soon as the move to Building 213 is completed and space becomes available it is planned to review our holdings and be more selective on such areas as the Middle East, Cuba, etc.
